

Color your world with Fabral

Fabral Specialty Finishes & Colors

Version 1.1 - July 09

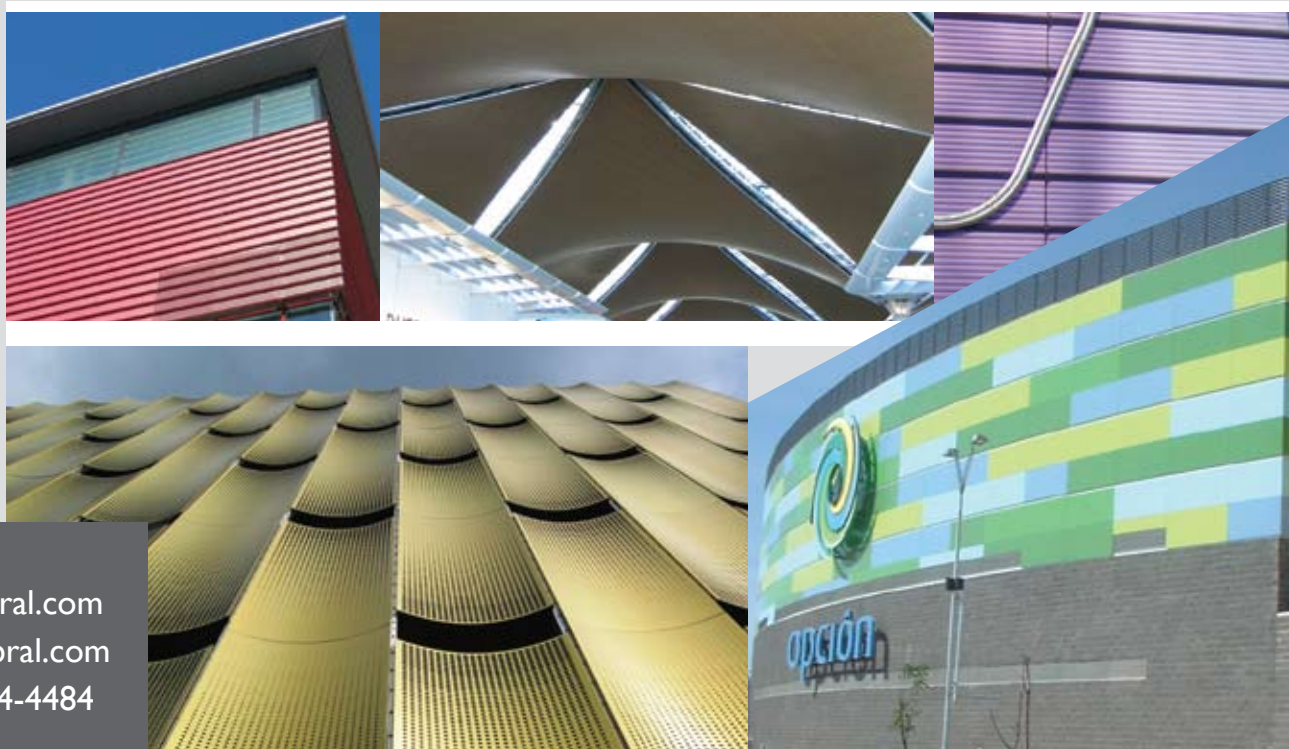

Fabral brings designers and architects an unlimited spectrum in architectural metals. Bold color choices, woodgrain or subtle natural textures are only the beginning. Don't limit your creativity to a palette of a handful of colors.

- The natural beauty of aluminum in a wide range of color tints
- Iridescent finishes that combine the reflection and refraction of light
- Patterns from wood and stone to edgy colors and unique textures
- Custom colors to match samples or corporate colors

All of which are available in aluminum substrates for painted coils, flat sheets and the complete Fabral Architectural Systems panel profile offering - creating an optimum solution for almost every cladding project.

Go with the one source that has it all—Fabral.

Color - creativity - design
