Version 1.2 - August 09

Color - Creativity - Design

Attract Attention...

Fabral manufactures metal roofing and wall systems that offer innovative surfaces in pre-coated aluminum. EuraMica is one of these special finishes; tailored to attract attention. By making use of mica effect pigments, these finishes exhibit a fascinating color variation that changes depending upon viewing angle and incidence of light...

- Project: Retail Park Roermond
- Location: Roermond - The Netherlands
- Architect: NIO architecten
- Product: EuraMica PVDF 4L
- Finish: Amethyst Purple Blue
- Effect: Color variation / iridescence

The wow effect!

The off-centre Retail Park is clad with EuraMica coated sheets in the color Amethyst Purple Blue. It's special color has turned this building into a landmark which attracts the attention of visitors from all over the region. It's success has led investors to develop new shopping centers in the surrounding area... and again EuraMica colors have been planned.

Fabral supplies innovative roofing & wall system solutions in pre-coated aluminum coil
