Color - Creativity - Design

Zinc...

is a natural material with a fantastic appearance. Weathering sets in over time and makes the material look alive. Sometimes however, it is desired that the weathering effect is directly present. In those cases a weathered zinc design in pre-coated aluminum offers a perfect solution.

Zinc in pre-coated aluminum

- Weathering effect immediately present
- Customized zinc designs possible
- Possibility to combine different aesthetics
- Available in various coating qualities
- Low weight - easier handling
- Price economy of aluminum
- Sustainable product
- No leaching of zinc

EuraZinc

- Zinc pigmented topcoat
- Real weathering properties

Fabral supplies innovative wall & roof panel solutions in pre-coated aluminum coil
