Version 1.6 - April 10

Expanded LEED product offering...

Fabral has always maintained a broad range of product designs and color choices that are not only architecturally appealing but also congruent with "Green Building" guidelines - and now Fabral is pleased to announce that their "green" offering has expanded even more.

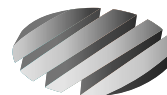

An additional 16 standard Flurobond™ finish colors now qualify for LEED (Leadership in Energy and Environmental Design) and Energy Star® approval, creating even more opportunities for you and your business as LEED approved products count towards obtaining "Green Building" certification for energy efficient, environmentally-friendly structures.

Newly approved Flurobond™ LEED colors include:

- | | |
|----------------|---------------|
| Charcoal Gray | Medium Bronze |
| Classic Green | Musket Gray |
| Colonial Red | Old Town Gray |
| Dark Bronze | Pewter |
| Hartford Green | Regal Blue |
| Hemlock Green | Slate Blue |
| Mansard Brown | Slate Gray |
| Matte Black | Teal |

Visit www.fabral.com to view the complete offering and Flurobond standard architectural color chart.

Aesthetically pleasing, durable and sustainable, Fabral architectural panels offer contractors and architects the finest choice of materials and customer service on the market today.
