

Residential Metal Roofing

for the WESTERN REGION

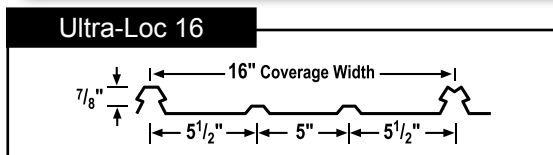

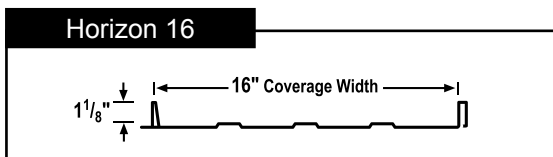

Fabral makes residential and light commercial roofing a snap.

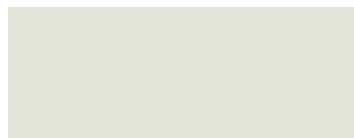

The elements can be tough on roofing materials, but Fabral's residential products, Horizon 16 and Ultra-Loc 16, are up to the task. Tough, 26 gauge, metal construction will bring maximum protection, low maintenance, long-lasting beauty and distinctive aesthetics to your home.

Metal roofing is made to withstand the elements; it is weather, wind, fire, insect and hail resistant and will protect your investment for years to come. Fabral residential roofing products can also be installed over any solid decking. For great looks and maximum performance choose Fabral.

- Stiffening ribs for added strength
- Light weight, energy efficient and fire resistant
- Easy to install-can be installed over solid decking or over an existing roof
- Time tested design
- Fade-resistant paint system with a lifetime finish warranty for years of low maintenance beauty
- 10 popular colors, 9 Energy Star Approved

White 899 • IR = .56

Charcoal Gray 851 • IR = .35

Light Gray 889 • IR = .31

Evergreen 875 • IR = .27

Caribbean Blue 881 • IR = .26

Hartford Green 821 • IR = .29

Brick Red 898 • IR = .32

Antique Bronze 854 • IR = .29

Classic Burgundy 853 • IR = .30

Bright Copper Penny 939

Colors shown are as close to actual colors as allowed by the printing process. Actual metal samples are available; request samples prior to installation. Due to product improvements, changes and other factors, FABRAL reserves the right to change or delete information here-in without prior notice. IR= Initial Reflectivity. All standard colors - less Bright Copper Penny - for the Horizon 16 and Ultra-Loc 16 are Energy Star approved. Oil canning can be caused by many factors and is not cause for rejection. If oil canning occurs, the installation of an ethofoam backer rod under the center of the panels can significantly improve the appearance.
